

Week 10: Hanging by the Fingers 8.8km

Where do all the COOL PEOPLE hang out? They Hang by the Fingers, a cruisey, flowy **GROOVY** route. **HANG TEN**. (Well, more like 8.8)

Starting back at Piccadilly, you'll be following the Teardrop loop and Fingers. Don't get too **STOKED** careening down the first hill on Fingers or you might be **RAGDOLLED**. Cruise the easy stuff as the forest opens up, soak up the sun and **RIDE THE WAVES** of the Fingers.

Ending at Thumbs Up, keep straight down Pine Flats. Hello Santa's Cabin, where the sneaky people are sitting there with their secret beverages. Hey, restrictions are lifting, maybe they'll share!

Carry on my wayward friend, to the bottom of Chutes where you will zig and zag to get onto the Inner Five. **RAD!** New territory here! Starts off easy, but NOOOOO... more work to be done.

Once up and over the **CRUX of the FIVE you'll be RIDIN' the Black Diamond downhill**. You can add side stepping, side slipping, or getting **BARRELLED** and sliding on your *derriere* (gotta throw some French in) while maneuvering the two challenging hills. (PS you can always de-ski and WALK!)

Back up again (no rest for the weary) for the Cranbrook Climb and **CRUSHING the Chutes** on the way down. (Yes, there is a bit of a criss-cross applesauce here, just follow the signs and read this again if you're confused.) Another zig to the left and a zag to the right on the Greenway Corridor you'll **TIME WARP** your way to the Larch Loop and to the finish.

FAR OUT DUDE! FEEL those BUNS OF STEEL (or get someone else to)
